

The first Japanese made computerized home sewing machine with a horizontal shuttle

Registration No.	Number 00369		
Registration Date	September 10, 2024	Registration Category	Category 1

Name (Model, etc.)	JANOME MEMORIA
Location	Hachioji-shi, Tokyo
	JANOME Corporation
Owner (Custodian)	JANOME Corporation
Manufacturer (Company)	Janome Sewing Machine Co., Ltd.
Year Manufactured	1979
Year first appeared	1979
Reason For Selection	This item is the first home sewing machine made by a Japanese manufacture to incorporate a horizontal shuttle that makes switching the lower(bobbin) thread easy, while also actualizing diverse pattern functionalities by fully employing a microcomputer. In addition to being one of the first computerized home sewing machines made in Japan, it is also important from the perspective of serving as a spark to popularize the usage of horizontal shuttles in sewing machines from other Japanese sewing machine manufacturers afterwards.
