

Pioneer of Japanese sewing machine

Registration No.	Number 00344		
Registration Date	September 12, 2023	Registration Category	Category 1

Name (Model, etc.)	Pine Sewing Machine Model 30 (Pine 100 type)
Location	Hachioji-shi, Tokyo
	JANOME Corporation
Owner (Custodian)	JANOME Corporation
Manufacturer (Company)	Pine Sewing Machine Co., Ltd.
Year Manufactured	Around 1935
Year first appeared	1929
Reason For Selection	Pine Sewing Machine Co., Ltd.'s (currently JANOME Corporation) Model 30 (Pine 100 type) was manufactured with reference to the Singer 15 household sewing machine. The Model 30 (Pine 100 type) was virtually the first private sector product in Japan for which the division of mass production of the sewing machine parts was adopted. After the war, this production system was further developed and laid the foundation for the "inter-firm division of production system" network that was highly regarded by the General Headquarters, the Supreme Commander for the Allied Powers (GHQ-SCAP) at the time. The Model 30 (Pine 100 type) is significant for having ushered in the "inter-firm division of production system," which also had a tremendous impact on the development of postwar Japanese industry.
Registration Standard	1-A (Show an important aspect or stage of the development of science and technology.)
