

Japan's original compact serger machine

Registration No.	Number 00348		
Registration Date	September 12, 2023	Registration Category	Category 1

Name (Model, etc.)	Overlock MS-1
Location	Yamagata-shi, Yamagata
	SUZUKI MACHINERY CO., LTD.
Owner (Custodian)	SUZUKI MACHINERY CO., LTD.
Manufacturer (Company)	SUZUKI MACHINERY CO., LTD.
Year Manufactured	Around 1966-1967
Year first appeared	1966
Reason For Selection	This item was commercialized in 1966 after its prototype production in 1963 as a "lockstitch machine." Original to Japan, this technology created a new market and new demand in the sewing machine industry, and led to the establishment of a new segment called "compact overlock" in the professional sewing machine category in Japan. This was groundbreaking and significant in that it resulted in the spread of Japanese-made compact serger machines throughout the world, with overseas manufacturers receiving OEM supplies from Japan.
Registration Standard	1-B (Show a uniquely Japanese scientific or technological development from an international perspective.)
