

The first G-SHOCK with astounding shock resistance

Registration No.	Number 00269		
Registration Date	September 10, 2019	Registration Category	Category 1

Name (Model, etc.)	Casio Shock-resistant Digital Quartz Watch CASIO HEAVY DUTY SPORTS DW-5000C (G-SHOCK)
Location	Setagaya-ku, Tokyo
	Toshio Kashio Memorial Museum of Invention
Owner (Custodian)	CASIO COMPUTER CO., LTD.
Manufacturer (Company)	CASIO COMPUTER CO., LTD.
Year Manufactured	1983
Year first appeared	1983
Reason For Selection	The first of the shock-resistant watch G-SHOCK series. Shock resistance not available conventionally was achieved by two epoch-making configurations: the five-stage shock absorbent structure that structurally absorbs shocks to the ‘engine’ of the watch packaging the electronic components and the point-contact floating-core structure that holds the ‘engine’ in a state close to floatation. These raised the shock resistance of the watch astoundingly. It is valuable as the product that made use in the harsh outdoors or during sports attainable for anyone, something formerly possible only with premium models.
Registration Standard	2-B (Made a notable contribution by facilitating an epoch-making advance in Japan’s economy and place in the world.)
