

The First Entertainment Robot Commercialized and Marketed for Home Use

Registration No.	Number 00185		
Registration Date	September 15, 2015	Registration Category	Category 1

Name (Model, etc.)	Entertainment Robot "AIBO" ERS-110
Location	Shinagawa-ku, Tokyo
	Sony Archives
Owner (Custodian)	Sony Corporation
Manufacturer (Company)	Sony Corporation
Year Manufactured	1999
Year first appeared	1999
Reason For Selection	This autonomous entertainment robot was the first to be commercialized for home use as a product that people could incorporate into their daily lives. It walked on four legs, expressed emotions, could learn and be trained by communicating with people and acted on its own judgement. The prototype used in development still exists and is an important piece that has contributed to the creation of a new field of science and technology.
Registration Standard	1-C (Contributed to the creation of a new scientific or technological field.)

Open/Closed to Public	Open to public
