Reason For Selection	The world's first LD/CD compatible player. The introduction of this device with its compatibility with the newly-emerged compact disc (CD) ensured player compatibility for optical discs, which are now commonplace. Since then, the concept that users should be able to playback their existing software by newly developed player for new media has carried over to the digital video disc(DVD)and Blu-ray disc(BD) and has been one of the main reason for the popularization of optical disc.
Registration Standard	2-A (Played a notable role in improving people's way of life and creating new ways of living.)

Open/Closed to Public	Closed to public
