

Registration No.	Number 00124		
Registration Date	September 10, 2013	Registration Category	Category 1

Name (Model, etc.)	FUJIX DS-X
Location	Minato City,Tokyo Metropolis
	FUJIFILM Corporation
Owner (Custodian)	FUJIFILM Corporation
Manufacturer (Company)	Fuji Photo Film Co., Ltd. (at the time), Toshiba Corporation (Joint Development)
Year Manufactured	1990
Year First Appeared	1989
Reason For Selection	The first digital camera, put on the market for the purpose of digital camera market research. It was released on sale for ¥160,000, including peripherals. With a resolution of 400,000 pixels for television playback and a 2MB memory card, it could capture six images compressed in the ADPCM format, the data compression format prior to the international standard JPEG. Designed in the shape of binoculars, it differed in shape from existing film cameras. It was marketed by Toshiba as the IMC-100. It was a significant product that demonstrated Japan's unique technological development from an international perspective.
