

Registration No.	Number 00061		
Registration Date	October 6, 2010	Registration Category	Category 1

Name (Model, etc.)	Mitsubishi small computer MELCOM81
Location	Kamakura City, Kanagawa Pref
	Mitsubishi Electric Information Network Corporation
Owner (Custodian)	Mitsubishi Electric Information Network Corporation
Manufacturer (Company)	Mitsubishi Electric
Year Manufactured	1968
Reason For Selection	Built using technology for accounting machines, this compact computer effectively combined the functions of a computer and an accounting machine. Use of computers was previously limited to large companies, but with the advent of these small computers that were highly suited for office computing operations, use of computers in small businesses immediately became widespread. This is Japan's original office computer, an important first-of-its-kind product.
