

Oldest transformer

Registration No.	Number 00001		
Registration Date	October 9, 2008	Registration Category	Category 2

Name (Model, etc.)	13.2kV-100kVA Transformer
Location	Yokohama-shi, Kanagawa
	Tokyo Electric Power Company, Electric Power Historical Museum
Owner (Custodian)	Toshiba Energy Systems & Solutions Corporation
Manufacturer (Company)	Shibaura Engineering Works
Year Manufactured	1910
Reason For Selection	This is Japan's oldest extant high-voltage transformer (>10,000 volts). Built on 10 years after embarking on autonomous manufacturing technology, this high-voltage transformer demonstrates how rapidly Japan acquired electrical power expertise and technology. It is also significant for showing Japan's future potential for technological development.
Registration Standard	1-A (Show an important aspect or stage of the development of science and technology.)

Open/Closed to Public	Open to Public
