Reason For Selection	<p>The coin mechanism, used to detect fake coins and dispense change, constitutes the brain of the vending machine. This coin mechanism from a drink vending machine is made almost entirely from domestic parts. It is significant in that it paved the way for 100% locally made units.</p> <p>Today, the ubiquitous vending machine can be seen all over Japan. The coin mechanism thus represents an important piece of our industrial history.</p>
