

The first Japanese made computerized home sewing machine with a horizontal shuttle

Registration No.	Number 00369		
Registration Date	September 10, 2024	Registration Category	Category 1

Name (Model, etc.)	JANOME MEMORIA		
Location	Hachioji-shi, Tokyo		
	JANOME Corporation		
Owner (Custodian)	JANOME Corporation		
Manufacturer (Company)	Janome Sewing Machine Co., Ltd.		
Year Manufactured	1979		
Year first appeared	1979		
Reason For Selection	<p>This item is the first home sewing machine made by a Japanese manufacture to incorporate a horizontal shuttle that makes switching the lower(bobbin) thread easy, while also actualizing diverse pattern functionalities by fully employing a microcomputer. In addition to being one of the first computerized home sewing machines made in Japan, it is also important from the perspective of serving as a spark to popularize the usage of horizontal shuttles in sewing machines from other Japanese sewing machine manufacturers afterwards.</p>		
Registration Standard	1-A (Show an important aspect or stage of the development of science and technology.)
